Subject: Online teaching with the help of
Spoken Tutorial

Dear Faculty Members,

In the current situation, many of us are trying to teach the students in online mode. I think it is the right time to remind you about an online tutorial program that we have already subscribed. It is <https://spoken-tutorial.org/>. Spoken tutorials have many tutorials on free software in the fields of science, engineering, management, design, humanities etc. Please have a look.

Home | spoken-tutorial.org

A spoken tutorial is a an a video tutorial that explains activity performed on the computer. An expert explain working of a software, by demonstrating it on the screen. spoken-tutorial.org

Yogesh Rohilla,

Assistant Professor, Electrical & Electronics Engg.

Department,
