Gulzar Group of Institutes

Ref. No. GGI/ Admin/305

Date: 14th August, 2014

Dear Jainendra Ji

We feel really glad to have an opportunity to introduce **Spoken Tutorial** Project in Gulzar Group of Institution, Ludhiana and surrounding regions. We are working on this project with all of our Hearts and with best of our efforts since last one year. Till date we have done 30 workshops and a Faculty development program. It is a matter of Proud for us to get the Spoken Tutorial way of teaching for our students and faculty members which is helping all of us in developing our Technical & Communication Skills. We would like to continue similar collaboration in future.

In this academic year we have decided to continue the lab deployment of C, C++ advance C++ and basic IT Skill under Fundamental of computers. In addition to that we are also starting lab deployment of Linux and Scilab for all the departments. It is Compulsory for all the students to learn it for minimum Duration of 12 hours. We would also like to mention that we have dedicated specific Lab containing 60 Computers for Spoken Tutorial Training Purpose.

As a part of RC activity, we are going to organize awareness event in September and a State level event in Feb 2015.

Note: Copy of Course Instruction plan of FCPIT and Photographs of the dedicated laboratory is attached.
