5.1 Instructions to practise

1. Create a folder on the "Desktop" with your "Name-RollNo-Component".
(Eg. "vin-04-awk").

2. Give a unique name to the files you save, so as to recognize it next time.
(Eg. "Practice-1-vin").

3. Remember to save all your work in your folder.

4. This will ensure that your files don't get over-written by someone else.

5. Save your work from time to time, instead of saving it at the end of the task.

5.2 Common instructions for Assignments

1. Attempt the `Assignments` as instructed in the tutorial.

2. Save your work in your folder.

5.3 Common instructions to use Code files

1. Click on the link `"Code files"` located below the player and save it in your folder.

2. Extract the downloaded zip file.

3. You will see all the code/source files used in the particular tutorial.

4. Use these files as per the instructions given in the particular tutorial.

5. Play-pause-practise the whole tutorial.

6. Once the tutorial is complete, choose the next tutorial from the playlist which is located on the right side or below the player.

7. Follow all the above instructions, till you complete all the tutorials in the series.

6 Improving your English

1. It is possible that you are not well versed with the English language. If so, you may choose one of the many other languages in which we have dubbed these tutorials.

2. In case you have learnt using a language other than English, please repeat all the tutorials in English. This will also improve your English language skills.

3. Please let us know in case you would like to dub these tutorials in any other language not currently available.
