

1 Online / Offline content

1. The online content of Spoken Tutorials can be accessed from :
<https://spoken-tutorial.org/tutorial-search/>
2. You can also download the Spoken Tutorials for offline learning from :
<https://spoken-tutorial.org/cdcontent/>
3. From this link download the FOSS categories in the language you wish to learn.
4. The Spoken Tutorial content will be downloaded as a zip file on your machine.
5. Extract the contents of the zip file & access them.
6. Read the README.txt file and do as instructed.

2 The procedure to practise

1. You have been given a set of spoken tutorials and files.
2. You will typically do one tutorial at a time.
3. You may listen to a spoken tutorial and practise by reproducing all the steps shown in the video side-by-side.
4. If you find it difficult to do the above, you may consider listening to the whole tutorial once and then practise during the second hearing.

3 Side-by-side learning video (Only for offline content)

1. Go to the folder name spoken on your machine.
2. Locate `index.html` file.
3. Open this file with either Firefox or Chrome web browser.
4. The Side-by-Side learning video will appear. This video will explain how to learn from the spoken tutorials.
5. Click on the Play button to play the video.
6. Note all the steps explained therein.

4 Sed - Stream Editor

1. Click on "Select FOSS" or "All FOSS Categories" drop-down and choose "Sed - Stream Editor".
2. Click on "Select Language" or "All Languages" drop-down and choose the language "English".
3. Click on "Submit" button.
4. You will see a list of tutorials based on your selection.
5. Start with the first tutorial in the displayed list.

5 First tutorial: Overview of Sed

1. Locate the topic "Overview of Sed" and click on it.
2. To view the tutorial, click on the Play icon which is located in the player.
3. What you can expect in this series and the content available in various tutorials in this series are covered in this tutorial

6 Second tutorial: Sed substitute command

1. Locate the topic "Sed substitute command" and click on it.
2. To view the tutorial, click on the Play icon which is located in the player.
3. Follow the tutorial and practice the steps as shown in the video.

6.1 Instructions to practise

- (a) Create a folder on the "Desktop" with your "Name-RollNo-Component".
(Eg. "asha-04-openplc").
- (b) Give a unique name to the files you save, so as to recognize it next time.
(Eg. "openplc-1-asha").
- (c) Remember to save all your work in your folder.
- (d) This will ensure that your files don't get over-written by someone else.
- (e) Save your work from time to time, instead of saving it at the end of the task.

6.2 Common instructions for Assignments

- (a) Attempt the **Assignments** as instructed in the tutorial.
- (b) Save your work in your folder.

6.3 Common instructions to use Code files

- (a) Click on the link "**Code files**" located below the player and save it in your folder.

- (b) Extract the downloaded zip file.

- (c) In the terminal, make sure to go to the folder where the code file is saved in your computer

4. Play-pause-practise the whole tutorial.
5. Once the tutorial is complete, choose the next tutorial from the playlist which is located on the right side or below the player.
6. Follow all the above instructions, till you complete all the tutorials in the series.
