

Tutorial Name: Working with 3D Objects

Assignment 1

1. Add a new **page** to your **Draw** file.
2. Draw a square and type the text **Square** inside it.
3. Convert the square with text to **3D**.
4. Compare the **3D object** text with the **2D** square text.

Assignment 2

1. **Create** a similar picture as shown on the slide.

Geometric Shapes in 2D and 3D Rotation

2. Use the **Convert To 3D Rotation Object** option to achieve this.

Assignment 3

1. Draw various shapes and try **Duplicate** and **Cross-fading** options using them.
