

Introduction to Scilab
Funded by the National Mission on Education through ICT
Indian Institute of Technology Bombay,
Organised by FOSSEE Group, IIT Bombay,
<http://scilab.in>

(The sequence of spoken tutorials to be listened/followed is same as that of exercise sets below.)

ODE Euler methods

1. Given the IVP $y'=t/y$, $y(2)=-1$ with $h=0.01$
Find $y(5)$ using both methods.
